OSA-0919-63

14 February 1963

25X1

MEMORANDUM FOR: [REDACTED]

SUBJECT : Space Requirements

25X1

1. Dr. Scoville at his staff meeting on 11 February informed Mr. Cunningham that the Director had agreed to assume the contracting and security responsibilities for the [REDACTED]

25X1

2. At Mr. Cunningham's request, a survey was made to determine space requirements to house the additional personnel required to support the [REDACTED] in the headquarters building.

25X1

3. In your memorandum to the Logistics Services Division dated 19 December 1962, DDR 852-62, you requested [REDACTED] square feet as the total requirement for OSA. Based on our survey, our new requirements now totals [REDACTED] sq. ft. or [REDACTED] sq. ft. over and above that now occupied by OSA.

25X1

4. Basically, as you know, all Programs assigned to OSA are of the highest priority, and as I have been led to believe, the [REDACTED] is in fact, considered even a higher priority than that assigned to our other Programs. This being the case, this Office strongly recommends that you appraise Colonel White of this and further inform him that due to the sensitivity of these activities, OSA cannot be located in various offices throughout the headquarters building. In other words, our recommendation would be that OSA be assigned the additional office space in the Sixth C Corridor.

5. Attached is a breakdown of our requirements.
